HAKKIMIZDA

Neroxspine özel olarak düzenlenen bir omurga implant firmasıdır.

ABD Kapsamlı bir ürün yelpazesi sunuyoruz yenilikçi, cerrah odaklı sistemler en iyi kliniklerle tasarlandı Çeşitli cihazlarımız

CE veya FDA onaylıdır. Tüm ISO kuralları ve düzenlemelerine uygundur.

Neroxspine sürekli olarak gelişiyor en yüksek kalitede bir portföy,

güvenli, etkili ve uygun fiyatlı omurga implantlar. Her zaman kararlıyız

Pazar trendlerinin ilerisinde olmak ve dünyanın her yerindeki cerrahlara hizmet vermek

dinamik çözümlerle onlara hastalara 30'a yakın distribütörle hizmete devam etmekteyiz.

Sizlere bir telefon bir e-posta kadar uzagız...

HIGH QUALITY COMPLETE LINE OF PRODUCTS

Quality has always been central what we do. Since our founding, our top priority has been to offer consumers all around the world products that meet the very highest quality and performance standards.

To achieve this, it takes three crucial things:

- Complying with ISO, CE and FDA procedures, rules and regulations
- A culture shared by all employees at every level
- A manufacturing and packaging process that targets excellence.

ACCESSIBILITY

Neroxspine reaches patients, medical facilities and providers all over the world through our network of motivated and experienced distributors.

FAST COMMUNICATION

Our customer service professionals are responsible for addressing customer needs and ensuring fast and efficient communication.

YÜKSEK KALITE KOMPLE ÜRÜN GRUBU

Kalite her zaman yaptığımız için merkezinde olmuştur.

Kuruluşumuzdan bu yana en büyük önceliğimiz, dünyanın her yerindeki tüketicilere en yüksek kalite ve performans standartlarını karşılayan ürünler sunmak olmuştur.

Bunu başarmak için üç önemli şey gerekir:

- ISO, CE ve FDA prosedürlerine, kurallarına ve düzenlemelerine uymak
- Bir üretim ve paketleme süreci mükemmelliği hedefler

ULASILABİLİRLİK

Nerospine ürünleri hastalara ulaşıyor, Motivasyonlu ve deneyimli distribütör aımız aracılığıyla dünya çapındaki tıbbi merkezler ve tedarikçiler.

HIZLI İLETİSİM

Müşteri hizmetleri uzmanlarımız, müşteri ihtiyaçlarının karşılanmasından ve hızlı ve etkili iletişimin sağlanmasından sorumludur.

LUMBAR

Posterior Spinal System

- Comprehensive screw offering for varying patient anatomy.
- Self-Tapping feature
- Design that minimizes vertebral deformation and soft tissue interaction.
- Easy Locking
- Monoaxial and Polyaxial screw groups
- Ability to accept Ø5.5 and Ø6.0 mm rods
- Tapered distal third for increased pullout strength
- Different types of screw options designed for different kinds of cases:
 1. Cannulated screw allowing cement injection
 2. Double-threaded Screw providing tighter grip
 3. Reduction Screw which is specifically designed to address spondylolisthesis and other deformities of the spine.

OMURGA IMPLAT SISTEMI

- Degisken hasta anatomisi için kapsamlı vida teklifi.
 - Kendi Kendine Dokunma özelliği
 - Omurga deformasyonunu ve yumusak doku etkilesimini en aza indiren tasarım.
 - Kolay Kilitleme
 - Monoaksiyel ve Poliaksiyal vida grupları
 - Ø5,5 ve Ø6,0 mm çubukları kabul edebilme özelliği
 - Daha fazla çekme kuvveti için konik distal uçlu
 - Farklı ihtiyaçlar için tasarlanmıştır
- farklı tipte vida seçeneklerivaka çeşitleri:
- 1.Çimento enjeksiyonuna izin veren kanüllü vida
 - 2.Daha sıkı kavrama sağlayan çift dişli vida
 - 3.Redüksiyon Vidası spondilolistezis ve omurganın diğer deformitelerini gidermek için özel olarak tasarlanmıştır

Lumbar PLIF Cage

- Available in a variety of lengths, heights and lordotic angles to adapt to a variety of patient anatomies
- Large internal chamber for the bone graft material of your choice
- Serrations on the superior and inferior surfaces for multi-directional fixation
- Ergonomically shaped anterior edges and flat posterior edges.
- X-Ray visibility with Titanium markers
- Sterile packaging for cases reducing sterilization burden and the possibility of infection

Lomber PLIF Kafes

- Çeşitli hasta anatomilerine uyum sağlamak için çeşitli uzunluk, yükseklik ve lordotik açı seçenekleri mevcuttur
- Seçtiğiniz kemik grefti malzemesi için geniş iç bölme
- Çok yönlü sabitleme için üst ve alt yüzeylerde çentikler
- Ergonomik ekilli ön kenarlar ve düz arka kenarlar.
- Titanyum isaretleyicilerle X-Ray görünürlümü
- Sterilizasyon yükünü ve enfeksiyon olasılığını azaltan vakalar için steril paketlenme

Lumbar Corpectomy Cage

- Rotatable superior endplate with variable lordotic angles
- Locking screw to help ensure distraction is maintained
- Optional in-situ insertion of bone graft
- Titanium alloy material offers mechanical integrity during insertion and distraction, x-ray visibility, and biocompatibility
- Simple implantation with only one instrument

Lomber Korpektomi kafes

- Degisken lordotik açılara sahip dönebilen üst uç plaka
- Dikkatin dağılmamasını sağlamaya yardımcı olan kilitleme vidası
- Istege bağlı yerinde kemik grefti yerle yetirilmesi
- Titanyum alasımlı malzeme yerleştirme ve distraksiyon sırasında mekanik bütünlük, röntgen görünürlüğü ve biyoyumluluk suna
- Tek bir aletle basit implantasyon

CERVICAL

Cervical Anterior Plate System

- Titanium alloy material providing high strength with low thickness
- Simple locking mechanism
- High degree of titanium alloy screw angulation
- Streamlined instrumentation
- Five different length options with two different diameters

Ön Servikal Plak Sistemi

- Düşük kalınlıkta yüksek mukavemet sağlayan titanyum alaşımlı malzeme
- Basit kilitleme mekanizması
- Yüksek dereceli titanyum alaşımlı vida açısı
- Kolaylaştırılmış enstrümantasyon
- İki farklı çapta beş farklı uzunluk seçeneği

Cervical Peek Cage

- MRI compatible PEEK material
- Convex design replicates the anatomy of the cervical spine
- Self-retaining teeth for gripping the endplates and resisting expulsion
- Wide grafting space to enhance bone fusion
- Sterile packaging for cases reducing sterilization burden and the possibility of infection

Servikal Peek Kafes

- MRI uyumlu PEEK malzemesi
- Dış bükey tasarım servikal omurganın anatomisini taklit eder
- Uç plakaları kavramak ve fırlamaya direnmek için kendinden tutucu dişler
- Kemik füzyonunu geliştirmek için geniş greftleme alanı
- Sterilizasyon yükünü ve enfeksiyon olasılığını azaltan vakalar için steril paketleme

Cervical Expandable Peek Cage

- Expandable structure up to 1 size allowing to adjust height of the intervertebral space.
- Time saving application method.
- Threaded surface
- Visibility on X-Ray with Titanium markers
- Sterile packaging for cases reducing sterilization burden and the possibility of infection

Servikal Genisletilebilir Peek Kafes

- Omurlar arası boşluğun yüksekliğini ayarlamaya olanak tanıyan 1 boyuta kadar genişletilebilir yapı.
- Zaman kazandıran uygulama yöntemi.
- Disli yüzey
- Titanyum isaretleyicilerle X-Ray'de görünürlük

Standalone Cervical Cage System

- Interbody fusion device with internal screw fixation
- No added anterior profile
- Angled and flexible instrumentation
- Large graft volume
- Optimized screw angulation
- Self-locking screws
- Adaptive sizing

Bagımsız vidalı Servikal Kafes Sistemi

- Dahili vida sabitlemeli gövdeler arası füzyon cihazı
- Önceki profil eklenmedi
- Açılı ve esnek enstrümantasyon
- Büyük greft hacmi
- Optimize edilmiş vida açısı
- Kendinden kilitlenen vidalar
- Uyarlanabilir boyutlandırma

CRANIOMAXILLOFACIAL PLATE SYSTEM

Craniomaxillofacial Plate & Screw

- Low profile of plate/screw minimize patient palpability
- Time savings through variety of plates, screws & instruments
- Safety & convenience due to stable & wireless fixation
- Easy selection of plates by colors
- The most ideal implant material "Titanium"
- High strength but easily formed to match bone contours
- Static free X-ray, CT and MRI
- Innovative Screw design allows for low insertion torque
- Rounded edges on plates decrease soft tissue irritation
- Reversible plates allow for lesser inventory
- Standardized instrumentation secures ease of use

Kraniyomaksillofasiyal Plak ve Vida

- Düşük profilli plaka/vida hastanın hissedilebilirliğini en aza indirir
- Çeşitli plakalar, vidalar ve aletler sayesinde zamandan tasarruf
- Sağlam ve kablosuz sabitleme sayesinde güvenlik ve rahatlık
- Plakaların renklere göre kolay seçimi
- En ideal implant malzemesi "Titanyum"
- Yüksek mukavemetli ancak kemik hatlarına uyacak şekilde kolayca ekilebilir
- Statik olmayan X-ray, CT ve MRI
- Yenilikçi Vida tasarımı düşük yerleştirme torkuna olanak tanır
- Plakaların yuvarlatılmış kenarları yumuşak doku tahrisini azaltır

Disc Prosthesis

- Biocompatible titanium alloy material
- Fast and safe bonding between bone and prosthesis surface of sharp teeth
- Natural motion pattern through shape and type of inlay/prosthesis, analogy between motion patterns of facet joints and prosthesis
- Good conformity with anatomy of vertebral body and improved primary stability by anatomical shape of prosthesis plates
- Safe and easy application in cases with narrow disc space through small height of prosthesis
- Flexible use in different grades of degeneration through specific designs
- Low risk of complication through safe materials and simple surgical technique

Disk Protezi

- Biyouyumlu titanyum alasmalı malzeme
- Keskin dislerin kemik ile protez yüzeyi arasında hızlı ve güvenli bağlanma
- Kakma/protezin ekli ve türü aracılığıyla doğal hareket modeli, faset eklemlerin ve protezlerin hareket modelleri arasındaki benzerlik
- Omurga gövdesinin anatomisine iyi uyum ve arasındaki benzerlik protez plakalarının anatomik şekli sayesinde birincil stabilitenin iyile tirilmesi
- Protez yüksekliğinin küçük olması nedeniyle disk alanının dar oldgu durumlarda güvenli ve kolay uygulama
 - Özel tasarımlarla farklı dejenerasyon derecelerinde esnek kullanım
- Güvenli malzemeler ve basit cerrahi teknik sayesinde düşük komplikasyon riski
